

Project Nomination Form

About this Form

This form is designed to allow stakeholders, concerned citizens and community members to present projects that can help contribute to the Mohawk Valley region's sustainable development and that may qualify for various grant and funding opportunities. This is not a grant application. These forms will be used by the Mohawk Valley Sustainability Consortium to help guide applicants toward funding opportunities. Information on specific projects will not be shared without your permission.

Projects may include "shovel-ready" infrastructure, transportation, energy efficiency, and land-planning projects, other pilot projects, feasibility studies, program development training, etc. that demonstrates significant economic and sustainable development to support and sustain a future green economy in the region.
